

Wakayama International School of English

Forest School

W.I.S.E. forest school

In the spring of 2024, W.I.S.E. plan to open Japan's first and only "all-British International Forest School" in Kimiidera, Wakayama City. Building on W.I.S.E.'s ethos of delivering high quality and affordable English education in Wakayama, W.I.S.E. forest school will be so much more than just another school...

The concept of the 'forest school' was developed in northern Europe during the 1950's and later became a key part of the education narrative at kindergartens and elementary schools throughout the continent. In the UK alone, there are now over 10,000 forest schools as the evidence for forest school children is clear – they perform better overall later in life. According to Plymouth Marjon University (2023) *"Research in the UK into Forest School and its impacts on young children found positive impacts on children in terms of confidence, social skills, language and communication, motivation and concentration, physical skills and knowledge and understanding"*.

W.I.S.E. forest school

As a natural world enthusiast and MSc Environmental Management scholar, Rob Sensei's aim is to follow the UK's Early Years Foundation curriculum, in English, at W.I.S.E. Forest School!

In an environment surrounded by nature there will be an English classroom, forest library, campground, allotment, BBQ space, pizza oven, chalk wall and activity centre. All activities and lessons undertaken will be designed to build fundamental life skills that develop character, personality, social interactions, physical mobility and independence. Furthermore, your child will develop an all-important skill to communicate in English, which will improve their chances of accessing top schools, as well as excelling in critical thinking and creativity.

Come and join us for the ride, it will be great!

About W.I.S.E. Forest School

W.I.S.E. Forest School is proud to state that we have prepared a great **indoor English classroom** for our students. The reason we are proud of this is because the very concept of a 'forest school' is to provide all of the education and activities outside! In addition, we have an incredible **forest library** for children to read, relax and enjoy nature, whilst gazing at the forest outside.

The majority of conventional forest schools also have no toilet facilities! At W.I.S.E. however we have installed a toilet in the **designated toilet** building for use any time.

Environmentally, our aim is to be as plastic-free as possible, using local products, organic food and environmentally-friendly materials. Great!

Rules and Disclaimers

- At W.I.S.E. International Forest School there will be fire-making, use of tools and equipment, natural resource collection, forest walking, insect collection and others. All activities will be completed with care; however W.I.S.E. cannot be held responsible for any accidents or injuries that may occur. Each member will be insured, but by enrolling at W.I.S.E. you are agreeing to the disclaimers.
- W.I.S.E.'s insurance policy also covers damage to some clothes, books and personal belongings, but we cannot be held responsible for any other damage.
- The W.I.S.E. Membership renews annually and must be paid in April each year. Member insurance is paid within the membership fee, so it's vitally important that all school fees are paid punctually and one month in advance at all times.
- Children from 4 years old are welcome.
